# HIGH PERFORMANCE FOR LARGE-SCALE OPERATIONS

Powerful drive with diesel, petrol or electric engines together with a large snow and water tank capacity: The WM evo<sup>2</sup> has been purpose-designed for resurfacing large stadiums and ice rings. Technically sophisticated, with a quick blade-change system and numerous extras, the WM evo<sup>2</sup> is the perfect partner for professional resurfacing of ice surfaces over 4,200 m<sup>2</sup>.

*„Our arena is a training centre for international teams and a venue for major sporting events. Perfect ice quality is an absolute must! With the WM evo<sup>2</sup>, I can guarantee perfect ice rinks.“*

**Toni Doppler**

Ice expert at the Max Aicher Arena  
Inzell / Germany

HIGHLIGHT

## ***EVERYTHING UNDER CONTROL IN THE DRIVER'S CAB***

The WM evo<sup>2</sup> is a guarantee of outstanding comfort for the driver and boasts a full, unobstructed view whether you're driving cabin-free or with all-round glazing. Three steps provide easy entry to the vehicle. All important information is clearly visible at a glance on the high-definition colour display, and all the main functions are keyboard-controlled. At a simple press of a button the automatic mode begins all work operations in a pre-defined order, while the height-adjustable Grammer suspension seat provides outstanding comfort.

## HIGHLIGHT

# ***ULTRA-LIGHT BLADES, CHANGED IN 60 SECONDS***

The WM evo<sup>2</sup> quick blade-change system eases working life enormously: Blades can be changed in just 60 seconds! The blades are made in a special steel, giving you both an above-average service life and an impressive weight: They are just 3.5 kilos. Blade changes can be carried out quickly and safely. Two blades together with all accessory equipment are supplied as standard in a practical wooden transport box.

- EASY, QUICK AND PRECISE +**
- LOW INJURY RISK +**
- IMPROVED QUALITY OF ICE +**

## ***INTEGRATED EDGER FOR END-TO-END RINK PERFECTION***

The edger is fixed to the body of the WM evo<sup>2</sup>, guaranteeing you outstanding stability and performance. It can be operated easily and safely from the driver's seat. The innovative horizontal spring-loaded system with guide wheel ensures that the edger follows the contours of the rink to perfection, and planes the ice evenly, rapidly and cleanly. Edging and subsequent cleaning of the ice surface with the swivel brushes can be carried out in one simple step. The edgers are positioned between the axels and in front of the brush, to ensure an unrestricted overview of the vehicle. When not in use, the edgers are stored between the wheels, and do not affect operation in any way.

## HIGHLIGHT

# ***NEED MORE THAN 2,500 LITRES OF WATER? NO PROBLEM!***

When you're building up ice depth or using the water sprayer, more water is a must. The WM evo<sup>2</sup> has it all taken care of! The water and snow tanks can easily be connected into one water tank with a total volume of around 2,550 litres of water. No more standing in cold water and tiresome tugging on hoses: All operations can be carried out from the comfort of the driver's cab – there's more than enough water to do the job.

Example: 1,400-litre water tank & 1,350-litre snow tank = 2,750 litres of water

## MAINTENANCE

The entire engine technology is easily accessible just by lifting the cab. This means that mechanics can carry out their work quickly and cleanly, which in turn saves on time and service costs. Our team also use remote monitoring to keep an eye on your vehicle monitor and rectify any faults which may occur.

**COST EFFICIENT** 📌

**FREE AND EASY ACCESS** 📌

**SKILLED REMOTE MAINTENANCE** 📌

## ELECTRIC / LITHIUM

## FACTS & FIGURES

Motor	7 asynchronous motors
Total power	33 kW
Water tank	1,200 l optional 1,400 l or 2,000 l
Snow tank	4.1 m <sup>3</sup> - compacted 5.1 m <sup>3</sup>
Transmission	Continuously adjustable electric all-wheel drive
Hydraulic oil tank	50 l
Speed	0 - 13 km/h
Tyres	225 / 75 / R16 C 6 rows of spikes
Wheel rims	8" x 16"

## INCLUDED IN DELIVERY

2 blades in wooden transport box

2 towels

2 rubber mats

Adjustment tool

Key for water filter

1 set hexagonal socket screws

2 Bodywork keys  
7 mm + 8 mm

Laceration-proof safety gloves

Grindstone

Storz coupling C with nozzles

## STANDARD EQUIPMENT

Cab with heated windshield in safety glass,  
windscreen wiper system and interior light

---

PLC control

---

7 inch colour display

---

USB port for installing updates and data exchange

---

Button for automatic mode: Operations start  
automatically in a predefined order

---

Spring-suspended and height-adjustable  
driver's seat (fabric)

---

Armrest with storage capacity

---

Power steering

---

Easily-accessible engine compartment (tiltable)  
with cab support

---

Maintenance-free asynchronous motors

---

Water tank made of PE

---

Snow bin & water tank connection (> 2.550 litres)

---

Function for automatic water filling system with  
immobilizer (Acquastop valve as optional)

---

Coated snow tank

---

Footbrake and parking brake

---

Hydraulically driven and swivelling side brush

---

Board guide pulley

---

Side mirror, rear

---

Front headlights, snow bin headlight, side headlight

---

Flashing warning light

---

Acoustic signal for reverse drive, snow bin cover  
operation, reverse of the screw conveyors and blade  
exchange

---

Proportional water metering

---

System for water dosing in curves

---

Planing system made of stainless steel

---

Constant grinding pressure planing system

---

Quick-Change-System for fast blade replacement  
(< 60 seconds)

---

2 blades in wooden transport box  
(super-light blade - 3.5 kg)

---

2 towels

---

Scope of delivery-set

---

WM EVO2

# OUR COMMITMENT

## User friendliness

Through the use of top-quality components together with a well-planned design, maintenance work is extremely simple and is reduced to a minimum.

## Quality guarantee

The WM evo<sup>2</sup> is a product which has been developed, built and assembled in house, from start to finish. Only by doing so can we guarantee top quality and punctual delivery times.

## Detailed operating instructions

You can find all information on operation, maintenance and safety in the operating manual.

## The right replacement part, every time

Order your spare parts easily and conveniently from our online portal: Our series number and digital image system enable you to find the part you need with just one click.

### Service and support

Our well-networked, international team of technicians undergo constant training and will be delighted to help you whenever you require assistance.

### Series production

All WM technics vehicles are series-manufactured. We know exactly which parts have been used in each series run, and can deliver the correct spare parts to you at all times. At the same time, a number of optionals can be retrofitted with minimum effort and maximum precision, even years later.

### Quality consciousness

From the manufacture of individual parts right through to the final quality-control inspection: Every step of the process is carried out and monitored with the utmost of precision. Each and every member of our staff is well-trained in his specialist field, and carries out all tasks conscientiously. This is a great advantage for our customers, who can be sure of receiving a technologically sophisticated product which has been manufactured to the very highest of quality standards.
